Celebrates

Old love, new love, even love that's true love. Every aspect of love is explored this oh-so slightly irreverent ode to St. Valentine's Day. Cole Porter, Jacques Brel, Kurt Weill, Andrew Lloyd Webber, the Gershwins, Rodgers & Hart, Ned Jones, Hoagy Carmichael, George David Weiss, Neil Sedaka and Billy Joel are just some of the composers covered in this program that pays homage to the ups and downs of that silly little thing called love.
